Empowering Minds. Building Businesses.

The SEDFA Learning Academy is an accredited education and training provider dedicated to developing the skills, knowledge, and expertise of Small Business Development Support Practitioners.

By enhancing practitioner competence and professionalism, the Academy contributes to improved service delivery to small enterprises and supports sustainable economic growth.

Training • Certification • Capacity Building • Quality Assurance

About the Learning Academy

We are responsible for the training and capacity building of Small Business Development Support Practitioners. The Academy responds to sector-wide needs for professional, high-quality business development support and fulfils SEDFA's legislative mandate to build the capacity of service providers supporting small enterprises.

As a central platform for Business Development Services (BDS), the Academy provides:

- Practitioner training
- Partner coordination
- Certification
- Quality assurance
- Small enterprise training and development

Through these initiatives, the Academy strengthens support ecosystems for small businesses and contributes to broader economic development.

Why Choose Us?
